EDUCATION

Universitas Jenderal Achmad Yani
Bachelor of Engineering
Agustus 2016 - Maret 2021

AWS re/Start - Orbit Future Academy
AWS Certificate Cloud Pratictioner
Oktober 2025 - Desember 2025

SKILLS

- Cloud Computing
- Linux Ubuntu Server (CLI)
- Configuration Networking (TCP/IP)
- Programming Language (JS, Python)
- Troubleshooting Hardware

LANGUAGE

- English
- Indonesia

WORK EXPERIENCE

(October 2023 - December 2023) Contract
Mechatronics Staff - PT Nagasyndo Berkat Tritunggal

- Troubleshot technical systems using logical and structured approaches
- Diagnosed hardware and system issues using analytical problem-solving
- Handled production system errors and reduced downtime
- Performed preventive maintenance to ensure system stability
- Conducted root cause analysis for recurring technical issues
- Monitored system performance and reliability
- Worked with technical teams to resolve system incidents
- Interpreted technical documentation and system diagrams.

(March 2022 - April 2022) Intern
Front-End Developer - Kawah Edukasi

- Built a responsive interface with React.js
- created reusable parts for smoother development.
- Added ongoing integration and delivery.

(Agustus 2021 - November 2021) Project
Wiring Engineer - PT Prima Elektrindo

- Installed PLC wiring & assembled panels
- Monitoring system hardware
- Mechanical base on panels

CERTIFICATIONS

- AWS Certified Cloud Practitioner (AWS 2025)
- AWS re/Start (Orbit Future Academy 2025)
- Linux System Admintrator (Adinusa 2025)
- Front-End Bootcamp (Digitalent Keminfo 2022)
